brief history

Originally created in Copenhagen by Danish architect Poul Cadovius, Abstracta® is an award winning display system and the first of its kind to allow the modular construction of simple and complex structural shapes, quickly and easily. In 1998, architect Roger Lepley, AIA, president of Consort Corporation acquired the original machinery and diecasts for the system and the worldwide trademarks.

As a division of Consort Display Group, Abstracta is part of an innovative collection of display solutions manufactured in Kalamazoo, Michigan and has extended further with abstractafurniture.com. With Consort you have even more choices. Consort Display Group is the proud manufacturer of Abstracta, Display One® Exhibit System, Kalamazoo Banner Works™, KBW BannerFlex® Hardware, Mya® Personal Tables, Abstracta® Furniture, Dori Pole® Pennant System, Podia® Tabletop Display, Kalamazoo Waterjet and KBW FlagTrax®.

introduction

how the abstracta modular display system works

The Abstracta system combines steel tube lengths, metal alloy connectors and steel accessories to form structured units utilizing shelving and panels. The result is a wide spectrum of applications from the simplicity of a cube to the complexity of a complete exhibition hall.

Abstracta is available in 13mm (1/2”) diameter tubes, allowing for most any configuration utilizing 90° connections. The stock units shown in this catalog are 13mm.

stock units & modified stock units

100% recyclable, Abstracta is a marriage of metal, wood and glass to make an eco-friendly presentation. Choose from stock units or let us help you design fixtures tailored to your specific needs.

Stock designs are available in a variety of finishes and come with or without glass. Other shelving options such as wood, mirrored glass and acrylic can be custom ordered. The design of any stock unit can easily be modified to meet your display or furniture needs or to accommodate graphics.

curved tubes

A curved tube with any given part number will connect with two standard straight tubes of the same part number to create a quarter circle (see illustration).

custom design services

From the unique and innovative to the classic and simple, Abstracta brings your concepts to life quickly and elegantly. Whether the job is building brand awareness or maximizing available space, Abstracta is the perfect solution. Our design service is available to assist with your ideas for special displays or furniture configurations. Abstracta will provide one hour of complimentary design time for simple modifications to stock designs. More complex changes or custom configurations may incur a $50 per hour fee with a $25 (30 min.) minimum charge.

when planning your design, consider the following:

floor space - What width and depth of floor space is available? Do you want access to the unit from more than one side? How large do you want shelves or horizontal surfaces?

overall height - Consider sight lines and shelf accessibility. Do you require a graphics holder or other signage on the unit? What are you placing on the top shelves?

vertical specifications - Consider the height between the shelves, will the displayed merchandise fit comfortably?

finishes - Available finishes for Abstracta shown on page 11.

assembly

With a nylon mallet and a hard surface, the system can be assembled quickly and easily. We encourage the use of the Abstracta Nylon Mallet (913) for assembly, the Abstracta Disconnect Tool (915) and Extractor Rod (EX-ABS) for taking units apart. A 10% discount will be applied to these three items when purchased with a stock, modified or custom unit. We recommend using a small amount of non-corrosive lubricant on the connectors prior to assembly.

Full instructions ship with every order and are available at www.abstracta.com

graphic stands & exhibition kits

For more versatility, graphic exhibition kits are available in three sizes.

Each kit contains ample components to construct the following configurations listed:

<table>
<thead>
<tr>
<th>kit type</th>
<th>price</th>
<th>configurations listed</th>
</tr>
</thead>
<tbody>
<tr>
<td>large kit</td>
<td>$6856.50</td>
<td>13 units Style D, E or F or 20 units Style A, B or C</td>
</tr>
<tr>
<td>medium kit</td>
<td>$5004.50</td>
<td>8 units Style D, E or F or 15 units Style A, B or C</td>
</tr>
<tr>
<td>small kit</td>
<td>$3375.00</td>
<td>5 units Style D, E or F or 10 units Style A, B or C</td>
</tr>
</tbody>
</table>

Units A, B, C and D must be connected to another A, B, C or D unit by using the S-clips to form towers and/or accordion style arrangements. The connections allow for structural integrity and vertical stability.

Units E and F can be constructed using the 4T connectors and 4.69" tubes as feet thereby creating a free standing unit. The above kits will contain ample components to construct the styles as shown.

Prices subject to change without notice
glass shelves

Glass is the most cost effective and popular solution. However, many other materials such as mirrored glass, acrylic and wood shelving and tops can be purchased. You may order stock units with or without glass shelving or request custom shelving.

combination of tube lengths

Abstracta is a mathematical system of tubes in corresponding lengths to fit various applications. Add two part numbers to determine a third existing part number.

For example: a #200 tube (7.28”) plus a #395 tube (15.8”) with a connector in between (.51”) is equivalent to an existing #595 tube (22.87”).

Popular combinations include:

| 65 + 145 = 210 | 130 + 330 = 460 | 345 + 460 = 805 |
| 130 + 200 = 330 | 200 + 395 = 595 | 395 + 410 = 805 |

13mm (½”) system - tubes

The tubes are net length in inches. When calculating overall dimensions, add ½” for each connector to net tube length.

custom orders
Custom orders are subject to minimum quantities, special pricing, pre-payments/deposits, and special shipping schedules. The particulars for custom orders will be quoted in advance.

Abstracta will cut tubing to any length. Please specify on the order: quantity, color, diameter, and tube length. The charge for custom cut tubes: (per tube) 13mm/$ .50 net.

shipping
Stock designs in stock colors ship within 7 - 10 working days from receipt of signed order. Shipments will be made according to your shipping and receiving instructions. If no instructions are provided, shipments will be sent by standard ground. Abstracta can be drop shipped or blind shipped at no additional charge.

inspection
Buyer agrees to examine the product delivered from Abstracta immediately upon receipt. Buyer agrees to advise Abstracta of any product quality or quantity disputes within 3 business days of receipt. Buyer will examine immediately upon receipt each Abstracta invoice and statement and will advise Abstracta of any disputed pricing, transactions or statements within 10 business days of receipt, together with a written statement specifying the reasons for such dispute. Failure to notify Abstracta of any dispute or of damaged goods within these time parameters shall constitute a complete waiver of any such disputes.

returns
No merchandise may be returned without prior written authorization from Abstracta in the form of an Abstracta issued Return Authorization number. Returned items may be subject to a 15% restocking fee. Collect shipments will be refused. Buyer agrees to pay return freight and/or reasonable storage charges for the merchandise returned without prior authorization regardless of the merits of the return. Liability for lost or damaged merchandise rests with the Buyer until such return is duly authorized and accepted by Abstracta.

rush charges
Orders which require shipment faster than published lead times, need to have the required ship date confirmed prior to the placement of the order. Rush orders will be subject to rush charges ranging from a minimum of 15% to a maximum of 50% of the complete order at full list prices. Rush charges are not subject to regular buying discounts. Rush charges will be confirmed prior to the acceptance of the order.

claims
Claims for merchandise damaged or lost in transit should be filed by the consignee with the transportation company. Original packaging is required by most transportation companies for damage claims. You may request additional insurance for your shipment.

payment
Orders must be placed with a fully completed and signed purchase order, or a signed Abstracta quote. Payment arrangements must be made in advance. All major credit cards are accepted. The card will not be charged until shipment has occurred. Credit applications are required to establish Net 30 terms. Please call for details. A $25 fee will be charged for checks with non-sufficient funds. A wire transfer payment or electronic funds transfer is required for customers outside of the U.S. Applicable fees are the responsibility of the Sender and are not to be deducted from the Beneficiary. Buyer must instruct their Financial Institution to deduct any fees directly from the Buyer’s account.

prices
All prices shown are list prices in U.S. Dollars, F.O.B. Kalamazoo, Michigan; and do not include shipping or applicable taxes. All prices are subject to change without notice.

warranty
Abstracta products are warranted against failure due to defects in materials or workmanship effective from the date of invoice for specific durations of time. The complete warranty is available at www.abstracta.com or contact your Abstracta sales representative.
