CORE UNIT

**DISPLAYONE**<sup>®</sup>  
**Messenger-X**  
GRAPHIC STAND

Ring Bars (or crossbars with rings) and Locking Helix bolts can connect with additional units.

Groove Grip™ crossbar makes assembly easy. Does **not** connect with additional units.

Our basic Core Unit is the starting point for many other configurations. This simple, one-panel display is available in varying widths from 20" to 120" and adjusts from 53" to 94" high. Panels and accessories can be swiftly assembled, changed, taken apart and packaged for easy and convenient travel from one presentation to another.

The DisplayONE is also available in the CAM Lock System.

The DisplayONE Messenger-X is an affordable graphics stand offering simplicity, versatility and quick assembly. Compatible with most types of graphics, it comes in 5 stock sizes from 20" to 46" wide which telescope from 53" to 94" high. The Messenger-X is easy to assemble because of the Groove Grip™ crossbar and Express Connect foot connection.
