

HARDWARE BANDING GUIDELINES

GUIDE TO TABLE

yes - combination will work successfully in typical wind conditions (60mph)
no - combination will not perform in typical, long-term conditions
n/a - does not apply; size combination impossible
N/R - combination will work, but is not recommended
Max Total - the maximum total sq ft of banner fabric for 2 banners / pole

BANDING OPTIONS

1/2", 9/16" or 5/8" Screw Gear Bands (SGB)
 Single wrap of 3/4" tool-applied banding (9 pole/100' box)-secured tightly
 Double wrap of 3/4" tool-applied banding (5 pole/100' box)

BOLTING OPTIONS

Brackets may be bolted in lieu of banding
 To determine the Max Total Sq Ft, use the 2 wraps 3/4" value

Our Guidelines and our Warranties are based on over 25 years of experience and testing. However, due to conditions beyond our control such as quality of the actual installation, including proper application of banding and bolts, as well as structural integrity of utility poles and other construction, Consort only offers the information as a guide. When in doubt, bring in professionals for inspection and advice. * note: this size is not covered by warranty
